# Company Overview & Operating Directory

Fictional internal knowledge base document

| | |
|---|---|
| **Document ID** | 01_COMPANY_OVERVIEW |
| **Version** | 3.2 |
| **Effective date** | 01 October 2026 |
| **Document owner** | People Operations |
| **Classification** | Internal – Fictional training content |

## Purpose

This controlled document contains invented company-specific facts, rules, limits, names, and procedures. It is designed to be ingested into a Retrieval-Augmented Generation (RAG) system so that answers can be grounded in source documents rather than model assumptions.

## 1. Company snapshot

**Legal name:** Asterion Works Private Limited

**Trading name:** Asterion Works

**Founded:** 2018

**Headquarters:** Bengaluru, Karnataka, India

**Other offices:** Pune, Maharashtra; Hyderabad, Telangana; Singapore

**Business:** Asterion builds workflow automation and analytics software for mid-market logistics, retail, and field-service companies.

**Website:** asterion-works.example (fictional; not a public website)

**Internal short name:** AW

## 2. Mission and operating principles

• Mission: make complex operational work easier to see, coordinate, and improve.

• Customer data is handled only for an approved business purpose. Employees must not use customer data in demos unless it has been anonymised and approved.

• Teams document decisions in the system of record rather than relying on chat history.

• Disagree in writing, decide with an owner, and record the decision and review date.

## 3. Products and terminology

**Orbit:** Workflow orchestration platform used to design, assign, and monitor operational workflows.

**Beacon:** Analytics product for dashboards, forecasting, and exception alerts.

**Relay:** Mobile application for field teams; supports offline task capture and later synchronisation.

**Control Room:** Customer-facing administrative console for user provisioning, audit exports, and integration settings.

**Workspace:** A customer-specific logical environment. A customer may have multiple workspaces.

**Tenant:** The isolated customer data boundary. Never use 'workspace' and 'tenant' interchangeably in access-control discussions.

## 4. Teams and responsibilities

**People Operations:** Employment records, leave administration, onboarding, and workplace accommodation requests.

**IT & Security:** Identity access, endpoint management, security incidents, approved software, and device inventory.

**Finance Operations:** Expense reimbursements, vendor payments, travel advances, and purchase orders.

**Customer Reliability:** Incident coordination, customer support escalations, service communications, and status updates.

**Product & Engineering:** Product roadmap, software delivery, architecture, quality, and technical documentation.

**Legal & Compliance:** Contract review, privacy assessments, regulatory requests, and records retention.

## 5. Office directory

**Bengaluru:** Asterion House, 4th Floor, 18 Residency Link Road, Bengaluru 560025. Office code BLR-01. Core collaboration hours 10:00–16:00 IST.

**Pune:** Meridian Plaza, 7th Floor, Baner Road, Pune 411045. Office code PUN-02.

**Hyderabad:** Orbit Towers, 3rd Floor, Hitec City, Hyderabad 500081. Office code HYD-03.

**Singapore:** North Bridge Centre, Level 9, Singapore 179094. Office code SGP-04.

## 6. Key internal contacts

**People helpdesk:** people@asterion-works.example; response target: 2 business days.

**IT service desk:** helpdesk@asterion-works.example; urgent security issues: security@asterion-works.example.

**Finance helpdesk:** finance-ops@asterion-works.example; expense queries should include the claim ID.

**Customer Reliability:** reliability@asterion-works.example; customer-impacting incidents must be raised in the incident channel first.

**Privacy office:** privacy@asterion-works.example.

## 7. Working arrangements

• Standard working week is Monday to Friday. Individual schedules are agreed with the manager and recorded in the HR portal.

• Core collaboration hours apply to Bengaluru only; other offices publish local team overlap hours quarterly.

• Employees working remotely must follow the same security, confidentiality, and records-handling requirements as office-based employees.

• Visitors must be registered by an employee host and wear a visitor badge. Visitors may not enter secure engineering areas without an escort.

## 8. Document control and precedence

• This document is an internal fictional reference for RAG practice. All people, addresses, email domains, products, and policies are invented.

• Document owners review controlled documents every six months. The effective date and version on the first page determine currency.

• If two documents conflict, a more specific policy takes precedence over this overview. For the same topic and scope, the newer effective date takes precedence unless it explicitly says otherwise.

• Questions that cannot be answered from controlled documents should be routed to the named owner. Do not invent a policy.

**End of document** — Questions should be routed to the document owner listed above. If the answer is not stated here or in another applicable controlled document, say that the knowledge base does not specify it.
